Course Evaluation for [\\${e://Field/Course%20Code%20Section%20Title}](#) taught by [\\${e://Field/Faculty%20Name}](#).

You are currently nearing the end of your course. We hope you take the time to assess the course by completing this survey. Your feedback is important and will help to improve the service and quality of learning for future students. At TRU, we are committed to providing learning with the best possible experience, therefore your feedback is crucial to this continuous improvement process.

Your responses are confidential and faculty members will not be able to link an individual student to any specific responses or comments. Written comments on course evaluations will be screened electronically, and removed, if they contain harassing or defamatory language as defined by the [BC Human Rights Code and the Human Resources Policy 11 - Discrimination and Harassment in the Workplace](#). A course-wide summary report will be provided to faculty members after all the results are compiled and final grades have been submitted.

The Centre for Excellence in Learning and Teaching will report on campus results of course evaluations for students to see how their responses are improving learning at TRU. Those results can be found on the [Student Course Evaluations](#) website.

Please provide your Student TID

This information will be used to track survey completion and will not be shared with your instructor. (example: T12345678)

Biology Lab Instructor Evaluation - Custom Questions

You are a critical source of information about the effectiveness of the instruction that you have received. Your thoughtful responses are appreciated and will be used to identify aspects of your instruction that are meeting your learning needs and those that need to be improved. Please complete the survey alone, not in consultation with your classmates. Student feedback will remain confidential and responses will be returned to the instructor only after all grades have been submitted to the registrar. This information will be used by individual faculty to improve their teaching. In addition, information from this survey could be made available to department Chairs and Deans for the purpose of assessing instructors.

This questionnaire contains four sections. In the first and fourth section we would like you to tell us a little about yourself and why you enrolled in this course. The second and third sections contain statements about your learning experience with your instructor. Please read each statement carefully and then rate the extent to which you agree with the statement as a reflection of your experience in the lab. Consider each statement separately and assess it based on your actual experience. In both sections, please answer these questions in the most constructive and objective way.
